Contents

Volume 8 Issue 3 | SVN June 2023

Editorials

175 Editorial: minor stroke is not minor

178 COP27 climate change conference: urgent action needed for Africa and the world

Original research

181 MALAT1 promotes platelet activity and thrombus formation through P38/Akt/GSK-3β signaling pathway

194 Aetiology of extracranial carotid free-floating thrombus in a prospective multicentre cohort

197 Kras mutation-induced EndMT of brain arteriovenous malformation is mediated through the TGF-β/BMP/SMAD4 pathway

207 Prospective, multicentre study of screening, investigation and management of hypotension after subarachnoid haemorrhage in the UK and Ireland

217 Osteogen ameliorates blood-brain barrier damage after experimental subarachnoid haemorrhage via the SHH pathway in male rats

Epidemiological study

238 Prevalence and risk factors of stroke in China: a national serial cross-sectional study from 2003 to 2018

Protocol

249 Rationale and design of a randomised double-blind 2×2 factorial trial comparing the effect of a 3-month intensive statin and antplatelet therapy for patients with acute mild ischaemic stroke or high-risk TIA with intracranial or extracranial atherosclerosis (INSPIRES)

Brief report

259 Venous thromboembolism among Medicare acute ischaemic stroke patients with and without COVID-19

Management of extracranial carotid artery stenosis during endovascular treatment for acute ischaemic stroke: results from the MR CLEAN Registry
