263 Antithrombotic therapy in patients with COVID-19: indications, pharmacotherapy and controversy
D Wang, C Lee, L Liu, L Huang, L Huang, Y Lu

Original research

267 Arteriosclerosis differs from venular collagenosis in relation to cerebrovascular parenchymal damages: an autopsy-based study
Y Cao, M-Y Huang, C-H Mao, X Wang, Y-Y Xu, X-J Qian, C Ma, W-Y Qiu, Y-C Zhu

269 Association between statin therapy and the risk of stroke in patients with moyamoya disease: a nationwide cohort study
J Ye, J Jeon, M Baik, J Kim

284 Differences in left and right carotid plaque vulnerability in patients with bilateral carotid plaques: a CARE-II study
S Shao, H Shi, C Wang, B Li, Q Sun, B Yao, H Watase, D S Hyper, C Yuan, X Zhao, Investigators of CARE-II study

292 Angioarchitecture and prognosis of pediatric intracranial pial arteriovenous fistula
J Li, Z Ji, J Yu, J Ren, F Yang, L Bian, X Zhi, G Li, H Zhang

301 Acute right insular ischaemic lesions and poststroke left ventricular dysfunction
K Winder, C Villegas Moller, G Siedler, M Knott, A Dörfler, K S Achenbach, M J Hilz, B Kalluziner, S Schwab, F Sefert, K Frohlich

307 Haemorrhage risk of brain arteriovenous malformation during pregnancy and puerperium
J Liu, H Zhang, C Luo, Y Gao, Y Li, D Yuan, W Jiang, J Yan

318 Mechanical thrombectomy with combined stent retriever and contact aspiration versus stent retriever alone for acute large vessel occlusion: data from ANGEL- ACT registry
X Hu, D Sun, M Hu, Reynald, B Jia, X Tong, G Ma, A Wang, N Ma, F Gao, D Mo, Z Ma, the ANGEL- ACT study group

327 Roles of light transmission aggregometry and CYP2C19 genotype in predicting ischaemic complications during interventional therapy for intracranial aneurysms
Y Zhou, W Li, C Wang, B Xie, Y Zhu, Q Peng, I Zhang, H Zhang, Y Gao, S Mu, J Liu, X Yang

335 Homocysteine impedes neurite outgrowth recovery after intracerebral haemorrhage by downregulating pCAMK2A
G Cao, J Yang, W Gao, H Deng, H Yu, S Bai, G Li, Y Tang, P Zhang, Y Xu, C Pan, Z Tang
